

La localización en las agendas de los donantes

Cómo entienden los donantes la localización y cómo la están implementando en sus instrumentos y políticas.

JORNADA: SOBERANÍA HUMANITARIA, Valencia, 21/10/2025

Daniel López Arteche, jefe de Servicio de Acción Humanitaria (DG Inclusión y Cooperación al Desarrollo).

V Plan Director de la Cooperación Valenciana

V Plan Director de la Cooperación Valenciana al Desarrollo

ÀMBITO	OBJETIVO ESPECÍFICO	RESULTADOS
Acción humanitaria	Fortalecer la capacidad de respuesta de la cooperación valenciana ante la creciente complejidad de las crisis humanitarias, desde un enfoque de protección de derechos y prevención.	· Se aumenta la capacidad de respuesta y la eficacia de la ayuda humanitaria a través de la alineación con los compromisos asumidos internacionalmente (Grand Bargain), la localización y la incorporación efectiva de la perspectiva de Triple Nexos y de los enfoques de promoción de la paz y sensibilidad al conflicto en las actuaciones en crisis emergentes y prolongadas. · Se mejora la complementariedad de los instrumentos de acción humanitaria, en el marco de una estrategia que responda a los nuevos contextos de intervención, que incluya respuesta a las denominadas “crisis olvidadas”, que facilite la coordinación de agentes y el aprendizaje y que refuerce la respuesta a las consecuencias de la pandemia en los contextos de mayor vulnerabilidad.

**ESTRATEGIA DE ACCIÓN
HUMANITARIA DE LA COMUNITAT
VALENCIANA
2018-2022**

Valencia, Noviembre 2017
Dirección General de Cooperación y Solidaridad

Se definen una serie de acciones **a corto y a largo plazo** hacia las que se debe orientar la acción humanitaria valenciana para avanzar de modo coherente hacia los **compromisos y las metas suscritas por España en el *Grand Bargain*** –mayor transparencia, mayor apoyo a actores locales y nacionales “localización”, incremento del uso y coordinación de respuestas basadas en efectivo, reducción de la duplicación y los costes de gestión, potenciación las valoraciones de necesidades comunes e imparciales, incremento de la participación incluyendo a las personas afectadas en la toma de decisiones, incremento de la colaboración en la planificación y la financiación multianual, reducción de las contribuciones “finalistas”, armonización y simplificación de los requisitos de justificación e informes y promoción del compromiso entre actores humanitarios y de desarrollo-.

Resumen de compromisos del *Grand Bargain*

- Mayor transparencia
- Mayor apoyo a actores locales y nacionales “localización”
- Incrementar el uso y la coordinación de respuestas basadas en efectivo (Cash transfer)
- Reducir la duplicación y los costes de gestión
- Potenciar las valoraciones de necesidades comunes e imparciales
- La “revolución de la participación”: incluyendo a personas afectadas en la toma de decisiones
- Incrementar la colaboración en la planificación y la financiación multianual
- Reducir las contribuciones “finalistas” (earmarking)

**ESTRATEGIA DE ACCIÓN
HUMANITARIA DE LA COMUNITAT
VALENCIANA
2018-2022**

Valencia, Noviembre 2017
Dirección General de Cooperación y Solidaridad

En un contexto global de concepción de lo humanitario en un sentido amplio, donde los debates giran en torno a la mejora de la calidad, la **localización** de la ayuda o la rendición de cuentas a las poblaciones afectadas, todos los actores humanitarios de relevancia coinciden en que la idea básica a respetar es la de “poner a las personas en el centro”.

Mayor apoyo a
actores locales y
nacionales
“localización”

Valoración del trabajo con copartes y el fomento de la capacidad institucional local en los proyectos de AH.
Hacer seguimiento del porcentaje de fondos que se ejecuta directamente por actores locales.

A largo plazo, sería deseable que la convocatoria de proyectos permitiese una financiación plurianual y que se trabajase en línea con flexibilizar la financiación a ONG locales permitiendo la **localización** de la ayuda.

Elementos relacionados con la LOCALIZACIÓN en Evaluación ex Ante Convocatoria SOLHUM 2025

A.1.3. Política Institucional de Género. [M]

D. La entidad social local tiene una política institucional de género vigente: plan de igualdad, estrategia de género u otros documentos internos equivalentes.

1

A.1.6. Pertenencia a redes.

D. La entidad social local pertenece a una red o clúster del sector de intervención.

1

A.1.7. Política de Apoyo a la Salud Mental y Bienestar Psicosocial personal humanitario. [N]

A. La entidad solicitante o la entidad social local cuenta con un plan o protocolo de apoyo a la salud mental y bienestar psicosocial del personal humanitario, vigente en el momento del cierre del plazo de solicitud de la subvención.

1

A.3.2. Integración en planes y programas propios en el país o región de actuación en la que se enmarca el proyecto.

A. La entidad acredita tener una estrategia o planificación de la intervención propia en el país o región de actuación en la que se enmarca el proyecto, vigente en el momento de finalización

D. La entidad social local acredita tener una estrategia en el sector de intervención en la que se enmarca el proyecto.

1

Elementos relacionados con la LOCALIZACIÓN en Evaluación ex Ante Convocatoria SOLHUM 2025

B.1.4. Diagnóstico participativo.

A. La población participa activamente en la toma de decisiones durante el proceso de identificación y formulación del proyecto, y esta se acredita suficientemente.

Hasta 3 puntos

B.3.5. Comunicación y socialización de resultados.

A. El proyecto contempla el diseño de un plan de comunicación y socialización de resultados que integre todas las acciones previstas en una estrategia más amplia.

Hasta 2 puntos

B. El proyecto contempla el diseño de un plan de socialización de resultados y rendición de cuentas para la población meta y las autoridades locales que integre todas las acciones previstas en una estrategia más amplia.

Hasta 1 punto

B.3.3. Participación de la población beneficiaria en el desarrollo del proyecto.

A. La población beneficiaria participa de la toma de decisiones en todas las fases del desarrollo del proyecto y, en caso de no participar en todas las fases esto se justifica y explica de forma fehaciente.

Hasta 3 puntos

Análisis convocatorias 2023-2024: Concepto localización

CONVOCATORIA 2023 PROYECTOS FINANCIADOS

- **24 proyectos financiados.**
 - **13 NO mencionan** en el proyecto técnico descriptivo la localización.
 - **11 proyectos mencionan** en el proyecto técnico descriptivo la localización: **8 hacen referencia** en la **matriz** y **3 no hacen referencia** en la **matriz**.

CONVOCATORIA 2024 PROYECTOS FINANCIADOS

- **21 proyectos financiados.**
 - **13 NO mencionan** en el proyecto técnico descriptivo la localización.
 - **8 proyectos mencionan** en el proyecto técnico descriptivo la localización: **4 hacen referencia** en la **matriz** y **4 no hacen referencia** en la **matriz**.

Respuestas evaluadora

II.B.1.4. Diagnóstico participativo

El detalle del diagnóstico participativo es insuficiente. Para futuras convocatorias se recomienda a la entidad aportar en el diagnóstico participativo adjunto un aporte fehaciente del proceso seguido (actas reuniones, listados, etc) y especialmente poner de relevancia la calidad del proceso participativo seguido (toma de decisiones) de TD/ TR/ TO atendidos por la acción.

II.B.3.3. Participación de la población beneficiaria en el desarrollo del proyecto

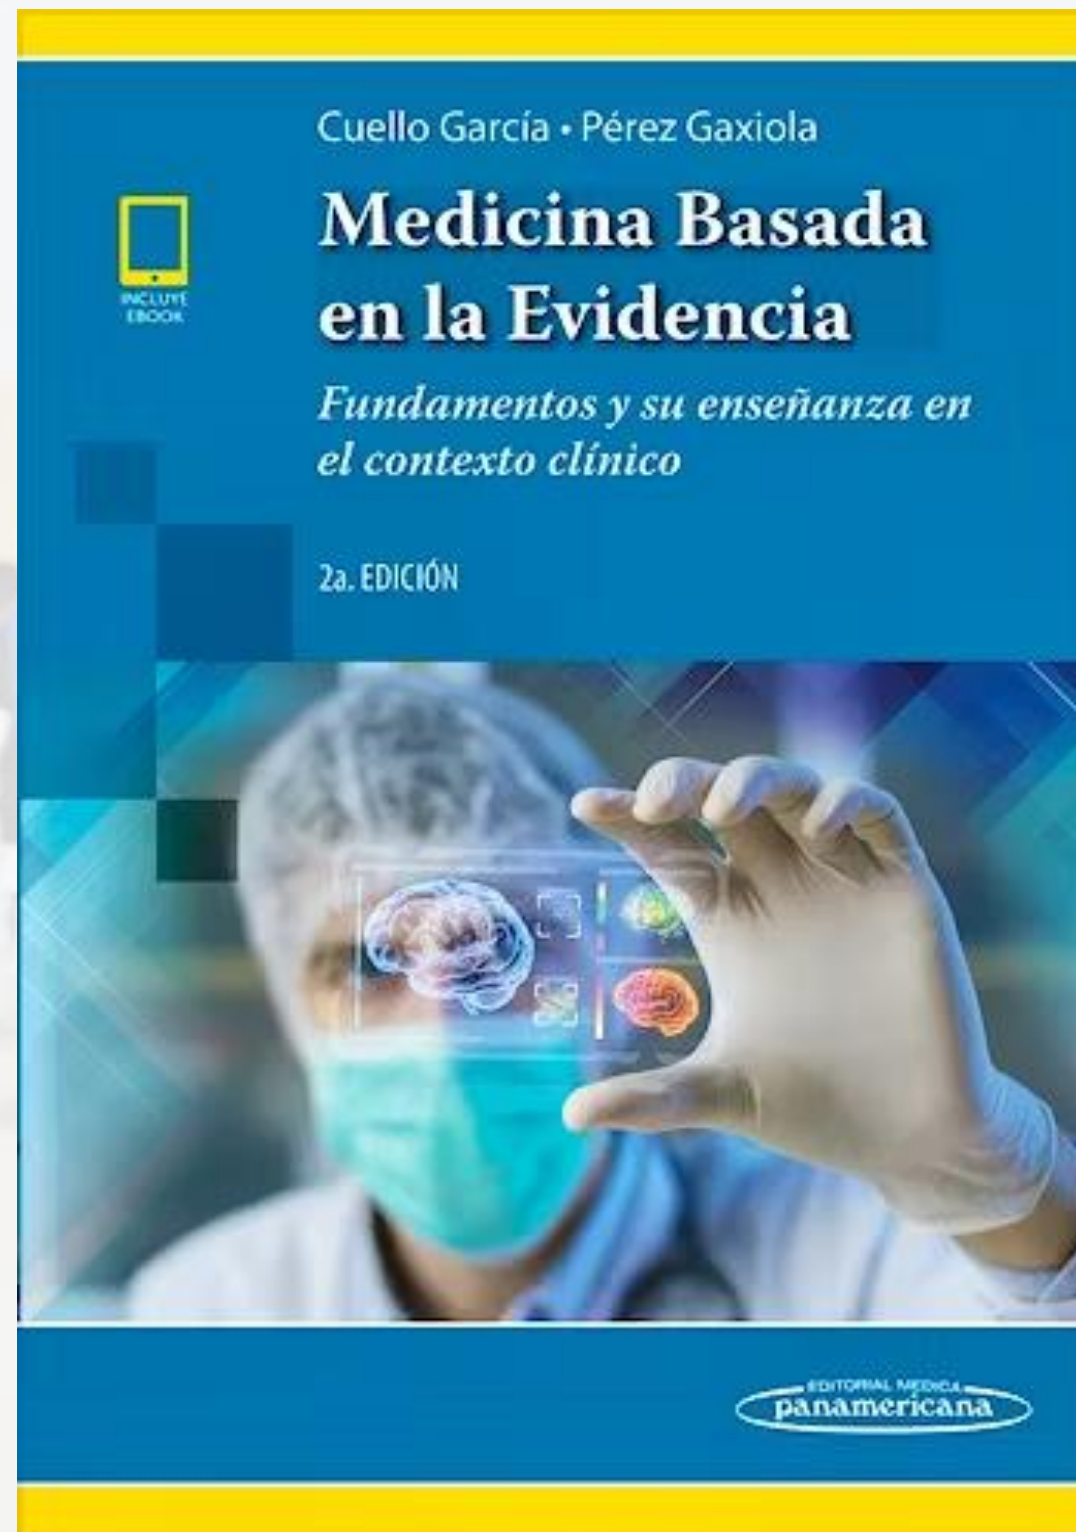

Se mantiene la puntuación otorgada inicialmente a este criterio, ya que la información aportada no alcanza la calidad suficiente para tener la calificación máxima.

El proyecto no asegura la participación de la población beneficiaria en todas las fases del proyecto ni en la toma de decisiones: lo mencionan pero no amplían detallando de qué forma. Solo hacen alusión a su participación en la identificación de necesidades.

No se encuentra una planificación del marco de participación. En el apartado correspondiente hay un análisis de los posibles obstáculos que esa participación podría tener, quién participaría y mencionando una metodología que no es ampliada.

Si bien se menciona que no existen obstáculos a la participación más allá de los provocados por el conflicto, se echa en falta un mayor desarrollo al respecto, con un más énfasis en medidas que remuevan los obstáculos a la participación (horarios adecuados, puntos de acceso cercanos, facilidades para la participación, etc) En cuanto a este aspecto concreto con las mujeres se identifica como riesgo/obstáculo que las mujeres pierdan la voluntad de participación; sin embargo la medida de mitigación no es suficientemente concreta para mitigar el riesgo y no se concretan acciones específicas para promover el rol activo de las mujeres en la toma de decisiones.

NUEVA ESTRATEGIA DE ACCIÓN HUMANITARIA.... basada en la “Evidencia”

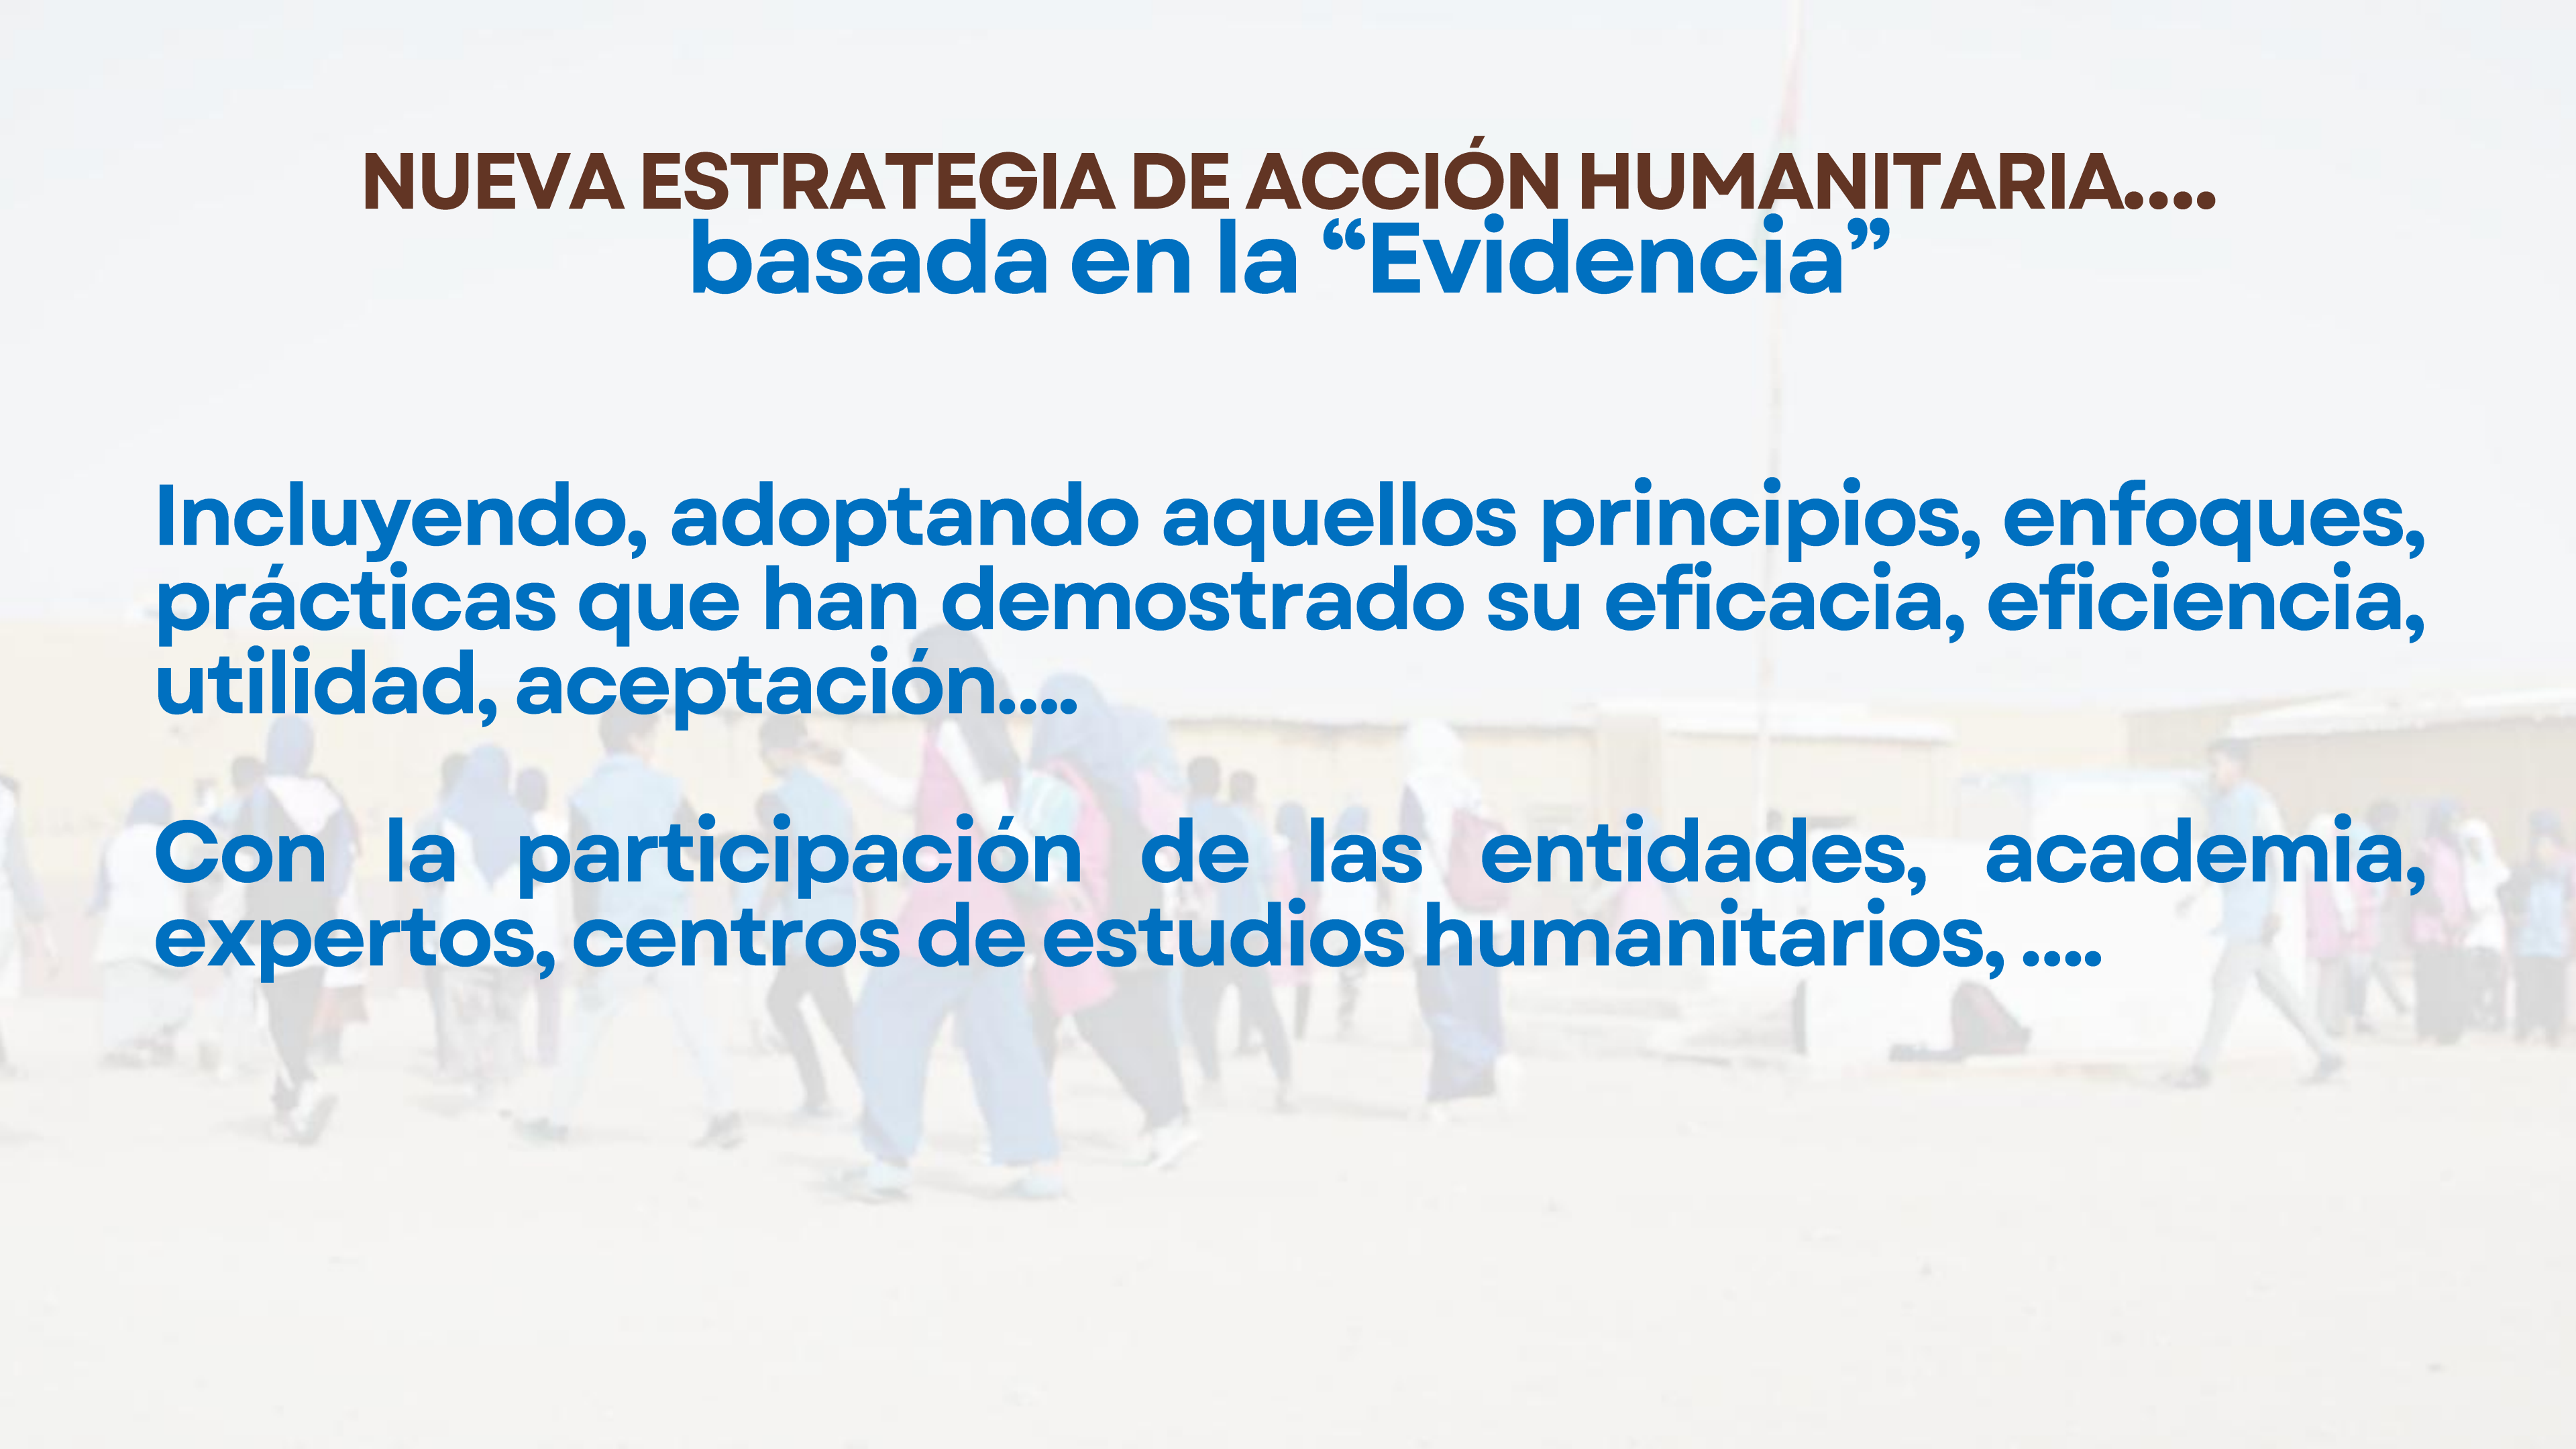

Clasificación del nivel de evidencia

NUEVA ESTRATEGIA DE ACCIÓN HUMANITARIA.... basada en la “Evidencia”

Incluyendo, adoptando aquellos principios, enfoques, prácticas que han demostrado su eficacia, eficiencia, utilidad, aceptación....

Con la participación de las entidades, academia, expertos, centros de estudios humanitarios,

REFLEXIÓN (I)

Necesidad de celebrar encuentros que permitan la reflexión, el análisis, la adopción de consensos sobre conceptos clave como: Localización, Protección,....

REFLEXIÓN (II)

“ Celebrar” el gran dinamismo y continua revisión crítica de los fundamentos y prácticas de la Acción Humanitaria.

Intenso, frutífero...(a veces agotador)... proceso de reflexión y cuestionamiento en torno a lo humanitario, con nuevas perspectivas y debates en constante evolución.

3 Hungry for more? Join our webinar series on Locally Led Cash (next one this Thursday)

The new brief mentioned above centres **locally led CVA** as a critical piece of a bolder, better humanitarian system – and this week's webinar picks up that theme. The **third session** in the What's Left, What's Next? series explores how **trust, compliance, and risk-sharing** can evolve to create more equitable partnerships. If you missed earlier sessions, no problem – we've got **short, engaging highlight videos** (2–3 minutes each) that capture key insights without the full watch time.

False economies: why underfunding local humanitarian actors puts everyone at risk

"Global humanitarian needs are escalating, and resources are contracting. How scarce funds are allocated is critical. A central fault line remains: local and national humanitarian actors (LNHAs) bear the greatest risks yet continue to be signed into exploitative and extractive sub-contractual arrangements. There is broad consensus that fair Indirect Cost Recovery (ICR) – fully flexible, unrestricted funding for overheads – is essential for effective aid (see Grand Bargain commitment on ICR sharing with LNHAAs)." *October 8, 2025 – ODI*

IHSA's Humanitarian Blog Posts Selection

IHSA is pleased to present its weekly selection of humanitarian blog posts.

As many welcome the Gaza ceasefire, including release of hostages and detainees, concerns mount over vagueness of the terms of the agreement. **Power asymmetries, insufficient detail on transitional governance and accountability, and continued violence in the West Bank risk threaten the durability of any peace.** Regional dimensions of the conflict increase these fears, including **Israel's continued attacks on Southern Lebanon and Syria.**

In Tigray, we read about how **invisibility and erasure have compounded the suffering of those who survived the 2020-22 man-made famine.** According to survivor testimonies it is not only what harm was perpetrated "but how the world looked away". **This silence has far-reaching implications for the normalisation of hunger as a political and military weapon against civilians in conflict.**

Local Solidarity Mechanisms for Resilience and Crisis Response in Niger

In the absence of adequate formal assistance, many communities rely on informal solidarity mechanisms for support in meeting daily needs, building resilience, and responding to multiple shocks and crises. This is the case in Niger, where a variety of local mechanisms exists across diverse communities – some with demonstrated capacity to respond to shocks. While these mechanisms are often overlooked in policies and programmes, two exceptions include support for women's informal savings groups or tontines, and adaptation of a local pastoral redistribution system for relief and development initiatives. Further strategies are needed to heighten understanding and promotion of such mechanisms in national policies and programmes.

Key messages

- A variety of local solidarity mechanisms provide a critical platform for social protection, mutual assistance and resilience in Niger, with some capable of activation in response to crises.
- Yet, such mechanisms remain overlooked in formal assistance policies and programmes, which fail to build on their rich potential and can often undermine collective values.
- Specific mechanisms have served as the basis for external support, including women's local revolving savings groups and a traditional animal redistribution system among pastoralists.
- Further efforts are needed to heighten understanding and promotion of such mechanisms in national social protection, humanitarian assistance, and development policies and programmes.
- Strategies to do so might start with expanding the evidence base on local mechanisms, identifying good practices and needs for further support, and developing a broad-based community of practice to guide future efforts.
